Chennai, India

PROFESSIONAL SUMMARY

AI Engineer— B. Tech Graduate in Computer Science (AI & Data Science), CGPA 8.2 — who builds things that actually ship. IBM Certified Agent Developer with a patent to my name: co-inventor of an AI – powered 3D educational tool recognized under the Intellectual Property Rights of India. Currently deepening expertise in Generative AI and Agentic AI at Boston Institute of Analytics. Proven across the full stack — Natural Language Processing pipelines, Large Language Models (LLMs), RAG systems, model deployment, and production e-commerce builds. I lead communities, annotate data, design brands, and write code—because the best AI engineers understand the whole product, not just the model.

CERTIFICATIONS & CREDENTIALS

IBM Certified Agent Developer — IBM Feb 2026
Certified in AI agent development using IBM watsonx, tool-calling, agentic workflows, and enterprise LLM deployment.

Generative AI & Agentic AI — Certification Course — Boston Institute of Analytics May 2026 · In Progress
4-month intensive covering LLM architecture, prompt engineering, RAG, multi-agent systems, and AI deployment.

TECHNICAL SKILLS

Languages & Tools: Python, Git, GitHub, TensorFlow, Scikit-learn, NumPy, Pandas, OpenAI API
AI / ML & Agents: Machine Learning, Deep Learning, LLM fine-tuning, RAG pipelines, agentic AI, supervised learning, model deployment, predictive modeling
NLP: Natural Language Processing (NLP), transformer models, text classification, topic segmentation, speech-to-text, BERT, DistilBERT, data preprocessing
Web & Creative: E-commerce development, Claude AI, graphic design, UI/UX, brand identity
Soft Skills: Problem-solving, critical thinking, cross-functional collaboration, event coordination, technical writing

PROJECTS

AI-Powered Study Tool (ED3D) — B.Tech Final Year · Published Patent 2024 – 2025

- Engineered an NLP pipeline for speech-to-text conversion, content summarization, and automated topic segmentation into structured educational material.
- Built a text classification model feeding structured output into a 3D model generation engine, enabling multilingual learning experiences.
- Patent published through IPR India — sole student inventor in the cohort.

NLP TensorFlow Patent

Document Q&A Bot — RAG · LLM Engineering 2025

- Built a RAG system with API integration via Open AI API and FAISS vector search, enabling context -aware, source -cited answers from uploaded PDFs .
- Reduced hallucination rate through semantic chunking and retrieval re-ranking; deployed as a Stream lit app.

RAG OpenAI API FAISS Streamlit

News Classifier & Summarizer — NLP Pipeline 2025

- Fine-tuned DistilBERT on 500+ news articles across 5 categories after data preprocessing and feature extraction, achieving 91% accuracy.
- Integrated OpenAI API for abstractive summarization, cutting average read time by ~70% while preserving key facts.

DistilBERT OpenAI API NewsAPI

CrazeFusion E-Commerce Website

Freelance · Full-Stack

In Progress

- Designing and building a full e-commerce platform — product catalogue, cart, checkout flow, and admin dashboard — end-to-end.
- Handling end-to-end development using Claude AI for code generation, UI/UX design, and deployment pipeline independently.

E-Commerce

Full-Stack

Claude AI

In Progress

FREELANCE EXPERIENCE

Graphic Designer

Freelance

2024 – Present

- Created brand assets, social media visuals, and marketing collateral for clients across multiple industries.

Data Annotator

Freelance

2025

- Labeled datasets for ML training pipelines — text classification, named entity recognition, and image segmentation tasks.

EDUCATION

B. Tech — Computer Science (AI & Data Science)

Dr. MGR Educational and Research Institute

Completed Oct 2025

CGPA: 8.2

Chennai, India

Higher Secondary (Science)

Emmanuel Matriculation Higher Secondary School, Chennai

2021 · 86%

LEADERSHIP & EXTRACURRICULAR

Chapter Lead – GDSC MGRERI

Google Developer Student Clubs

Aug 2023 – Jul 2024

- Spearheaded 10+ technical events including AI/ML workshops, study jams, and hackathons, consistently drawing 100+ student participants.
- Recruited and managed a core team of 8 volunteers; delegated responsibilities across event ops, design, and social media.
- Collaborated with Google Developer experts to bring industry-relevant sessions on ML, cloud, and open-source to campus.
- Grew chapter engagement by 60% over the tenure through consistent programming and community-first event design.

International Relations Student Coordinator

Dr. MGR Educational and Research Institute

Aug 2024 – May 2025

- Served as the primary point of contact for international students, guiding them through onboarding, documentation, and campus orientation.
- Planned and executed 5+ multicultural events celebrating global traditions, boosting international student retention and satisfaction.
- Bridged communication between international students and faculty, resolving queries across language and cultural barriers.
